See The Difference

A revolutionary treatment for glass

The optional Diamond – Fusion treatment helps protect the glass from the build up of soap scum and hard water deposits and reduces the cleaning time by at least 50%. Diamond – Fusion, when added during manufacturing, uses a vapor mist to fill the natural microscopic peaks and valleys in the glass, with an ultra thin optically clear durable material making the surface easier to clean and more resistant to weathering caused by the build up of soap scum and hard water deposits. Simply wipe down with a washcloth or squeegee after showering and maintenance will never be easier and the beauty will show through no matter what the water conditions are.

Diamond-Fusion

EnduroShield

- UP TO 90% LESS CLEANING TIME
- REVOLUTIONARY NON-STICK PROTECTIVE COATING
- SUITABLE FOR ALL GLASS SHOWER DOORS

KEEP YOUR SHOWER LOOKING BRAND NEW FOR YEARS TO COME WITH ENDUROSHIELD

- Permanently* bonds to glass
- Dramatically reduces cleaning time
- Repels soap scum and grime
- Helps inhibit the growth of mold and bacteria
- Protects against limescale, staining and etching
